

HARMONISE

Harmonise, with my heart beat.
'Cause you and I, craft this melody.

Like waves lap, the sand's surface,
My cries trap, and I feel worthless.

**But, I'll be the brush, within your fingers,
I'll sing the words, that you've give.
You be the stillness, when all else shivers,
and the arms, you hold me with.**

And there's no stopping us,
from being right here,
'Cause time's frozen with no rush,
and there's nothing to fear.

(Chorus)

So, Let's harmonize, with each other,
Nothing will jeopardise, what we discover.

(Chorus)
